

BIBLIOGRAPHY 1988

This third annual bibliography shows yet again a significant increase in the number of entries — well over 300 — which demonstrates the continuing popularity in our region's history. The majority of the entries are of items published during 1988, although some material has been included which was published in 1987, but which appeared or was notified too late for inclusion in last year's bibliography. May I again extend my gratitude to those who have submitted items for inclusion and reiterate once more the plea to those readers who know of newly published materials which can be added to next year's bibliography to please submit them as soon as possible. This plea is directed this year particularly at those Local Societies — history, genealogy, antiquarian, civic etc. — which have published, are publishing or are going to publish material. Please notify **Peter Leonard, All Saints Library, Manchester Polytechnic, All Saints, Manchester M15 6BH.**
